LONDON, Nov. 24, 1879. The Sligo prisoners will be charged before the county magistrates to-day. Only members of the press will be admitted. Two solicitors will defend Davitt and Daly. Killen will defend himself. The request of the solicitors to visit the prisoners on Sunday was refused. The services of Mr. Philip Callan, liberal member of Parliament for Dundalk, in the defense of the prisoners, have been declined. A large meeting of Irishmen and Irish sympathizers was held at Newcastle-on-Tyne on Saturday. Meetings were also held on Sunday at Leeds and at Manchester, where only 300 persons were present, and at Birmingham where the hall was crowded. At all of them resolutions were passed protesting against the arrests of Davitt, Daly and Killen. One of the greatest demonstrations that ever occurred in layo was held at Swinford on Sunday. Nearly 20,000 farmers were present. Mr. Parnell made a speech in support of a resolution, which was adopted, condemning the action of the government. In October Captain Jonks went to Norfolk to superintend some work going on there for the government. At first he wrote regularly to his wife and sent her money. Several months after his letters changed in tone and he stated he was unable to support her, and urged her to apply for a divorce. The cause of this change, it was alleged, was that he had become attached to Mrs. Ameia Campbell, the widow of a rich citizon of Norfolk. She is about thirty-six years of age, and has two children. They travelled together, visiting Montreal, Richmond and Washington, and finally came to Estimore. It is said that he was married to Mrs. Campbell. On their arrival in this city Mrs. Jenks had an interview with Mrs. Campbell and Captain Jonks, and the latter, finding that he had been discovered, left the city. The suit for divorce followed. Captain Jenks is a brother-in-law of Mrs. Agnes Jenks, who testified in the Louisiana election fraud cases.

## THE WEATHER YESTERDAY.

WASHINGTON.

FROM OUR REGULAR CORRESPONDENT.

WASHINGTON, Nov. 23, 1879. GENERAL GRANT AND THE NICARAGUA CANAL-

LARGE SALARY PROPOSED TO BE PAID. General Grant, in a letter to Admiral Amp acknowledges the receipt of his letter in regard to the mission of Mr. Thomas de Franco, the representative of the Nicaraguan government who come to this country to aid in the formation of a company to construct the Nicaragua Canal. General Grant says that his engagements will prevent his coming East until some time in December. He will be in Philadelphia on the 16th of December. and exchange views upon the object of his visit. It is understood that Mr. De Franco will visit Wash-ington some time this week, at the invitation of dmiral Ammen, when the proliminary arrange nents will be made for carrying out the plans he

has in view.

Since it has been announced that business more and capitalists are ready to promote the scheme there has been considerable speculation as to whe-ther General Grant will immediately accept the task of organ zing the company. It is said that the salary proposed is \$25,000 a year until the canal is in workng order, when it is agreed to increase it to \$50,000 ABRIVAL OF CONGRESSMEN DELAYED BY THANKS-

GIVING DAY-WORK DEFORE CONGRESS. Thanksgiving Day this year is so near the close of the month and the session of Congress beginning on the 1st of December that but very few Congressmen have arrived in Washington thus far, and the probability is that the majority will not reach here until the day of the session. Many of the members have already engaged their quarters for the session and most of the Senators have already announced their location for the winter. As yet no measure of any importance has even been hinted. It measure of any importance has even been hinted. It will be remembered that during the extra session committee work was held in abeyance, so that the large number of bills already referred and not acted upon furnish the committees in both houses with abundance of work from the very opening of Congress. It is understood that the democratic programme will be a general cutting down of estimates and opposition to all measures looking to large appropriations for improvements generally.

THE GOVERNMENT PROPERTY IN BUFFALO. The Secretary of War says the position of the government in defending its property at Buffalo against the encroschments of the Delaware, Lackawanna and Western Company was taken after United amined the whole question and reported to the Chief of Engineers that the company had not the shadow of right to make the improvements where they proposed. It is merely a question, the Secre-tary says, whether the government shall quietly submit to have its property appropriated by a pri-vate corporation. In this instance, it being a mili-tary reservation, the troops have a right to guard EXPORTS OF DOMESTIC PROVISIONS AND TALLOW

Mr. Joseph Nimms, Jr., chief of the Bureau of Statistics, furnishes the following advanced state ment of the exports of domestic provisions and tallow from the undermentioned customs districts of the United States during the month of October, 1879, and the month of October, 1878:-

## A MISMANAGED COAL COMPANY.

SERIOUS CHARGES AGAINST THE RECEIVERS OF THE LEHIGH AND WILKESBARRE COAL COM-PANY-A LOSS OF ONE MILLION DOLLARS.

[BY TELEGRAPH TO THE HERALD.] PITTSBUBG, Fa., Nov. 23, 1879.
In the United States Circuit Court yesterday the administrators of J. B. McCreery, of Philadelphia, made affidavit that the receivers of the Lehigh and Wilkesbarre Coal Company were mismanaging the loss to the company of over \$1,000,000. On applica-tion of Silas W. Pettit, attorney for the plaintiff, the Court granted a rule on William H. Tillinghast, of New York city; E. W. Clark, of Philadelphia, and Benjamin Williamson, of New Jersey, who are the above mentioned receivers, to show cause why they should not give bonds for \$300,000. The Lehigh and Wilkesbarre Coal Company was forced into the hands of receivers by the collapse of the Central mailroad of New Jersey. J. B. McCreery owned stocks and bonds in the company to the amount of about \$400,000. His administrators alamount of about \$400,000. His administrators allege that the receivers have turned over the mining of the coal into the hands of two contractors, who are Charles Parish, of Wilkesbarre, president of the coal company, and E. B. Leisenring, of Mauch Chunk. These contractors are said to have the entire charge of the business and to make large sums of mouey out of it at thee x-pense of the company. One of them realized \$40,000 per month for about a year.

F. A. Potts, a coal broker, of New York, has charge of the saie of the coal, and the plaintids swear that Potts gets on an average twenty cents per ton less than other men who sell the same kind of coal. As the company mines over a million tons of coal per year this is a large item. For a long time the Lehigh and Wilkesbarre Coal Company operated the mines of the Lehigh Transportation Company, and sold the coal from the latter's mine at the same rate that it sold its own. The contract for the management of these last named mines expired a short time ago, and since then E. W. Clark, president of the Lehigh Transportation Company, and one of the receivers of the other company have sold coal at a price forty cents per ton higher than that obtained previously. These suits will create a great sensation in the upper coal regions, as several prominent people in the State are Involved.

# CHILEANS IN PERU

Advance of the Invaders After the Capture of Pisagua

LIMA UNDER MARTIAL LAW.

Iquique Threatened --- Prado on the March --- A Great Fight Imminent.

> [From the Panama Star and Herald.] LIMA, Nov. 5, 1879.

Although the news to be transmitted from the south by this opportunity is important in the exreme, yet the telegrams received from the authori nes at Arica are so provokingly meagre as to really leave us in doubt regarding many very essential points. At last the long heralded descent of the Chileans on the Peruvian coast has been attempted and made. On Sunday morning, the 2d inst., sixteen of the enemy's vessels, transports and men-of-war, appeared off Pisagua, and without loss of time did their course toward the shore. Pisagua was defended by a detachment of 900 Bolivian troops under the chief command of Colonel Granier, but it appears that General Buendia, in charge of the fences and army of Tarapaca, was likewise in the place at the time. Two Parrot rifles, 100-pounders, vere mounted on the bluff overlooking the town, but, it is asserted, were without adequate shelter. sent up over the cable by General Prado from Arica, which is in communication with Pisagua by a land line, announces that the fight was heavy; the shore batteries resisted, and the loss of life was great, but at ten minutes past five the fatal intelligence was finshed up that Pisagua was captured, Buendia hav-ing retired toward San Bernardo, a short two leagues from the scene of battle. This result was, however to have been expected. No troops, with insufficient protection from heavy guns, could withstand the are from the Chilean vessels, which, probably aconainted with the weakness of the detending forces. leans, we knew, were covering with iron a number of their launches in Valparaiso for the proper shelter of the men while landing, and doubtless were also employed.

NUMBER OF THE INVADERS.

The force of the invading army from the data re ceived from Antofagasta and Valparaiso, would probably be from eight to ten thousand men. What vas done by the invaders after the action at Pisagua s unknown to us up to present writing. We are fifty miles from Pisagua and at the termination of the railway leading from that point to the interior. There the General is within a few hours' march of the extensive Peruvian and Bolivian divisions stationed at Iquique and througout the district of Tarpaca and in a position of natural advantage, easily defended against an approaching enemy. From Iquique we received a telegram last evening to the ffeet that all the troops in that port and vicinity had united and were ready for immediate battle, but this leaves us in doubt as to whether the Chile ans had sent a portion of their torces by sea to Iquique or that the allied army at that place was oule to join Buendia. To effect a junction with him the allies have the railway from Iquique to the Noris, and from thence a march or forty miles through a country where there is plenty of water and resources; through the very centre of the nitrate establishments. The Chileans, to attack him, have a heavy journey o undertake, and must depend upon their own provisions and water carried with them. A fair stand up fight may consequently be expected soon with the Chileans far outside of the protecting fire of their ships; but up to this moment the intelligence given above is absolutely all that has been re-ceived from the Director of the War in the south. I will keep this despatch open until the last moment.

LIMA IN ARMS. Lima has been declared under martial law; all citizens capable of bearing arms must enroll themselves in the line of National Guard regiments, but the attacking force of the Chileans on Tarapaca ssault. It is not probable that the enemy is strong enough to attempt two such undertakings, and it is evident that the main object of Chile is the nitrate of Tarapaca. toward the guano deposits in the same latitude. It again is on the cards that no possession will be assumed by the enemy over these treasuries. A

strong allied army must first be overcome. The Huascar, according to Chilean reports will be

ready for hard work within a month. The Pensacola arrived from the South on the 3d inst.; all well on board. The Alaska sailed southwardly on the 4th. The Triumph, Hansa, Victoricuse and Onward are still in the hav

POSTCRIPT.

LIMA. Nov. 5-7 P. M. Despatches by cable just received from Arica com municate that General Buendia has fallen back from Agua Santa, and has perfected his communications with the remainder of the Peruvian and Bolivian men. This army is concentrated between Peña Grande and Iquique—will doubtless be massed to give battle at the last named point. Peña Grande is about midway on the line of highway between the termini of the railway leading up from Iquique and Pisagua, that is about seventeen miles fr either point, The Chilean troops were at Santa Catalina, thirty miles more or less from Pisagua on the railroad advancing toward Buendia. It was feared in Iquique that the Chilean squadron might appear at any hour and destroy the town. All the ular forces stationed there were hastened up to Buendia's assistance, and only a garrison of National Guards remain. Meanwhile Daza and Prado must be marching over toward Tarapaca.

THE LATEST NEWS.

The battle on land must soon take place. Telegrams just received announce that Buendia ha fallen back to Peña Grande, on the thirty-four mile stretch, between the inland termini of the Pisagua and Iquique Railroad, and had been joined by his reinforcements, making in all about nine thousand men. The Chilean advance was at Santa Catalina. thirty miles or more from Pisagus, on the railroad, and still going forward toward Bu-endia's positions. Prado and Daza, or their must also be advancing toward the Province of Tarapaca fram Arica and Taena, directly in the rear of the Chileans. The number of the lat-ter is variously estimated, probably 10,000 to 11,000 soldiers. Fears are entertained of the destruction of Iquique by the united Chileau naval force. Th town is only guarded by National Guards, as all the regulars have gone to Buendia's support.

By next steamer we will have important news. This battle promises to be semi-decisive.

### THE TREACHEROUS UTES.

ARMY OFFICERS DOUBIFUL OF THE SUCCESS OF THE PEACE COMMISSION-AN EXPRESSION FROM GENERAL SHERMAN-THE TROOPS READY FOR ACTION.

Wasserson, D. C., Nov. 23, 1879. Prominent army officers in this city are by no means sanguine of the attainment of success by the Ute Commission (of which General Hatch is president) in its efforts to procure the designation or the surrender by the White River Utes of the murof the treacherous assault upon Thornburgh's command. On the contrary, the belief is generally expressed in army circles that the Indians have been and are still simply trying to gain time in the hope that military operations against them will be pre-vented by winter weather, and that the guilty members of the tribe may scatter before the spring season opens, so as to clude either detection or punish

GENERAL SHERMAN ROPEFUL.

General Sherman said yesterday that he hoped for the best, but there was no telling what would take place. He had given orders, he said, to leave no means untried to make our soldiers at present in camp in the Ute country as comfortable as possible, and had directed that shelter, clothing and the best of food that could be procured should be furnished them. In the event of the Interior Department failing in its present efforts to obtain possession of the murderers the army would be on the spot and make short work of them in the spring, or sooner if necessary. He believes the winter will have then so reduced the condition of their poines as to make it impossible for them to escape.

Other officers of experience in ladian wars remark

Other officers of experience in ladian wars remark that in only one instance in the whole history of our country's Indian troubles has an Indian chief delivered up for capital punishment a guilty member of his tribe, the case being that of hilly Bowlegs, the Seminole chief, during the Florida war, he having surrendered three of his tribe to General Twiggs to be executed. A singular fact in connection with the Seminoles' law was that if a member of the tribe was sentenced to death his executioner must be his nearest of kin.
